

HS-NOBILITY™

Breeding / Development:

HS-Nobility™ was developed specifically for lager brewing, with a focus on a balanced noble-style hop character. After multiple rounds of brewing trials at the Rahr Technical Center, it was added to the BSG Hop Solutions portfolio in 2020.

Sensory: Primary aromas and flavors of citrus (lemon, orange), lemongrass, green tea, and herbaceous, with a mixture of floral and spice.

Brewing Application:

Dual-purpose blend for classic lagers from Pils to Bock, as well as hop-forward craft lager styles, Kölsch, Altbier, or any beer that calls for a balanced and refined hop character.

 SENSORY HIGHLIGHTS	 BREWING VALUES	 OIL FRACTIONS
Citrus Herbal Green Tea	Alpha Acid Range: 4.2 - 4.5% Beta Acid Range: 4.9 - 5.3% Co-Humulone as % of alpha: 27 Total oils mL/100 gr.: 0.7	Myrcene: 34.0 - 38.0% Humulene: 22.0 - 22.4% Farnesene: 6.4 - 7.6% Linalool: 1.0 - 1.2%
